

FISCAL NOTE

SB 2693 - HB 2459

February 3, 2000

SUMMARY OF BILL: Allows for-profit and non-profit organizations to conduct cholesterol screening programs by licensed nurses at commercial retail establishments under the supervision of a licensed physician.

ESTIMATED FISCAL IMPACT:

**Increase State Expenditures - \$25,500 Recurring
\$6,200 Non-Recurring**

Increase State Revenues - \$31,700

Assumes:

- A need for one position and associated expenses for the Medical Laboratory Board to process exemption requests required for this type of screening. Currently approximately 20 requests are made weekly for non-profit organizations to perform cholesterol screening. Estimate assumes the number of such requests would increase significantly.
- License fees will be set at a level necessary to fund expenditures of the Board.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director
